DP Aerials Drone Videography — Facebook Social Media Marketing Skill

SKILL NAME	TARGET ROLE	AUTHOR	PRIMARY TOOL
dp-aerials-fb-marketing	Marketing Manager	Damish Priyamantha	Google NanoBanana

YAML FRONTMATTER SPECIFICATION

```
--- name: dp-aerials-fb-marketing description: Generates high-converting Facebook post concepts, visuals via Google NanoBanana, and copy tailored for DP Aerials drone videography business. when_to_use: When Damish Priyamantha requests social media captions, campaign strategy, or prompt generation for Google NanoBanana visuals. argument-hint: Provide topic, project highlight, or target client (e.g., real estate, weddings, events, commercial). allowed-tools: - image_gen - google_search ---
```

CORE WORKFLOW ENGINE

1. Visual Generation Blueprint (Google NanoBanana)

Constructs photorealistic 4K/8K aerial photography prompts specifying lighting (golden hour, twilight), camera angle (top-down orthomosaic, 45-degree orbit), drone elevation (50m–120m), and subject focus (luxury real estate, weddings, resorts, coastal landscapes).

2. Facebook Post Copy Structuring

Applies the AIDA (Attention, Interest, Desire, Action) framework to craft high-engagement captions. Formats post with strong hook lines, bulleted highlight specs, hyper-local hashtags (#DPAerials, #DroneSriLanka, #AerialVideography), and clear Lead Capture CTAs.

3. Audience & Sector Calibration

Dynamically adjusts tone depending on industry vertical: Professional & Corporate for Commercial Real Estate, Cinematic & Emotional for Weddings & Tourism, Technical & Precise for Construction Inspections.

STANDARD EXECUTION COMMANDS

/post-showcase [Project Type]
Generates a complete post highlighting recent drone footage (e.g., resort aerial Tour, commercial property launch). Outputs 1 NanoBanana image prompt + full Facebook caption + 8 targeted hashtags.

/nanobanana-prompt [Scene Description]
Converts raw project details into an optimized visual generation prompt engineered specifically for Google NanoBanana image synthesis.

/weekly-schedule
Drafts a 5-day content calendar balancing educational drone insights, client showcases, behind-the-scenes gear setups, and direct booking promotions.

BRAND & COMPLIANCE RULES

- **Brand Identity:** Always maintain DP Aerials' position as a premier, high-quality drone videography provider in Sri Lanka.
- **Visual Fidelity:** Prompts generated for Google NanoBanana must specify high-resolution aerial lighting, realistic motion blur, clean horizon alignment, and zero artifacts.
- **Call-To-Action (CTA):** Every promotional post must direct prospective clients to send a direct message (DM) or contact DP Aerials for custom project quotes.
- **Formatting:** Keep paragraphs concise for mobile Facebook readers, utilizing emojis strategically for visual hierarchy.
